

OSADA INDUWARA

AI/ML ENGINEER

 **Mobile:** +94 77 25 65 240  **Email:** ingallaba@gmail.com  **Address:** 4/360, Makala South, Sri Lanka

 **LinkedIn:** www.linkedin.com/in/osadainduwara  **GitHub:** https://osadainduwara.github.io

PROFILE SUMMARY

AI developer with **1.5 years** of internship experience building **machine learning and deep learning models**. Full-stack skills in **Django**, Next.js, and Flutter. Skilled in automating workflows using **LangChain** and **CrewAI** and in creating generative AI applications that address real-world challenges.

TECHNICAL SKILLS

- Programming Languages: **Python** (intermediate)
- AI/ML Frameworks: **TensorFlow**, PyTorch, scikit-learn, Keras, NLTK, H2O, FLAMEL, **Hugging Face Transformers**
- Generative AI Tools & Models: **GPT-3.5 Turbo**, LLaMA, Claude, Grok 3, Gemini API
- MLOps & Deployment: AWS SageMaker, **Docker**, Jenkins, GitHub Actions
- Data Science Tools: Pandas, NumPy, PowerBI, QGIS
- Databases: **PostgreSQL**, MySQL, MongoDB, **ChromaDB**, Firebase
- Web & Mobile Development: **Django**, **Flask**, FastAPI, Next.js, Flutter
- AI Techniques & Concepts: Deep Learning, Natural Language Processing (NLP), Generative Adversarial Networks (GANs), Explainable AI (XAI), Graph Neural Networks (GNNs)
- AI Automation & Workflow Orchestration: **n8n**, **CrewAI**, **LangGraph**, Langchain, LlamaIndex

PROFESSIONAL EXPERIENCE

Freelance Full Stack AI/ML Developer

Since 2023

Dialog Axiata PLC | Former trainee business intelligence developer

May 2022 - April 2023

- Researched and trained a deep learning model to identify anomalies and detect fraud situations in energy consumption.
- Used Apache Superset to visualize GIS data.

Telecommunication Regulatory Commission Sri Lanka | Former trainee software developer

Oct 2021 - April 2022

- Developed a dashboard web application using Django and HTML, CSS

PROJECTS / HANDS ON EXPERIENCES

Fraud Detection and Electricity Usage Forecasting Model (Dialog Axiata)

- Developed an Artificial Neural Network (ANN) for fraud analysis and electricity usage forecasting.
- Utilized autoML tools to enhance accuracy.

Autonomous AI Researcher Tool

- Multi-agent system for automated research and report generation using CrewAI and LLMs.

Chatbot Applications with Retrieval-Augmented Generation (RAG)

- Developed chatbots using GPT-3.5 Turbo and LangChain including chat-with-PDF functionality.

Career guidance system powered by machine learning.

- Created a Django web application integrated with a regression model for career guidance.

Dashboard Web Application (TRCSL)

- Developed a dashboard web application with Django backend and Bootstrap frontend.
- Implemented MySQL database for data storage.

Mobile Application for Sri Lankan Farmers to Centralize their Sellings (ongoing)

- Developed a mobile application using Flutter and Firebase.
- Integrated an image classification model for enhanced functionality.

EDUCATION & CERTIFICATIONS

- Bachelor of Science Computer Science (Software Engineering)** | Second Class (2nd division) **2022 - 2023**
Wolverhampton University
- National Diploma Technology in Information Technology (NDT)** | Institute of Technology University of Moratuwa **2019 - 2022**
- Secondary Education** **2003 - 2017**
GCE Advanced Level Examination – 2017 | Physical Science Stream (Combined Mathematics, Chemistry, Physics)
Grades: A, C, C

REFEREES

Dr. MRS K Galappaththi

Phone: 0714434530

Email : kgalappaththi@yahoo.com

Head of the division of IT, Institute of Technology University of Moratuwa

Tharaka Gunasekara

Phone: 0773336050

Email : tharaka.gunasekara@dialog.lk

Consultant - Group Technology, Dialog Axiata
